General Proposal Requirements

Each contractor shall respond to the Request for Proposals by the stated deadline with a comprehensive proposal, which shall include, but is not limited to, the following:

1. It is the intent of this specification that the Township of Ocean (the "Township") enters into a one (1) year agreement, with two (2) renewal provisions, for disposal of Bulk Materials at the contractor's Bulk Material Recovery Facility.

2. "Bulk Material Recovery Facility" means those sites designated in the Monmouth County Solid Waste Management Plan such as a transfer station which is primarily designed, operated and permitted to process non-hazardous Type #13 and 13C Waste Materials by utilizing manual and/or mechanical methods to separate from the incoming waste stream categories of useful materials which are then returned to the economic mainstream in the form of raw materials or product of reuse.

"Type #13 Bulky Waste" means large items of solid waste, which because of their size or weight require handling other than normally used for disposal of municipal waste. Type 13 Bulky Waste includes, but is not limited to, such items as demolition or construction materials, old fences, carpet, and padding, micro wave ovens, furniture, household items of an unwieldy nature, tires and drums.

"Type #13C Construction and Demolition Waste" means waste building material and rubble resulting from construction, remodeling, repair, and demolition operations on houses and other structures. The following materials may be found in construction and demolition waste: treated and untreated wood scraps, plaster and wall board, roofing materials, non asbestos building insulation, plastic scrap, carpets and padding, glass (window and door), and other miscellaneous materials, but shall not include other solid waste types.

"Concrete Materials" means material composed of aggregate bonded together with cement.

"Material Statement" means the definition of Bulky Waste, construction and demolition waste, rubbish, tied or containerized brush or branches and is intended to give an indication of the types of wastes to be accepted by the contractor and does not list every conceivable item that could be listed.

"Rubbish" means all material generated by residential units consisting of material other than food waste and items not included in the current Township recycling list.

"Brush" means tree limbs, branches, hedge and shrub clippings that is tied, bundled or otherwise containerized.

3. The Township retains the right to automatically renew each extension option, as bid by the Contractor, unless Township notifies the Contractor, in writing, at least ninety (90) days prior to the expiration of the end of the initial proposal or any of the extension options, of the Township's intent to cancel the contract.

4. The Contractor shall submit with the proposal a list of all municipalities where the Contractor had a contract for accepting Bulky Waste during the last five (5) years.
5. An average of one thousand (1,000) tons of Bulky Waste are disposed of annually. The quantity specified is for estimating purposes only, and actual quantities may vary during the term of the contract, as conditions require. Any award shall be non-exclusive and shall not preclude the transport of Bulky Waste to the Monmouth County Reclamation Center.
6. The proposal price shall be on a tonnage basis delivered in open hauling trucks or compactor vehicles. The proposal price shall be submitted on a flat price per ton.
7. **Evaluation of Proposals.** The Township shall have the sole power and discretion to determine the qualifications, responsibility and capabilities of firms, the reasonableness of the price and other factors. All proposals submitted in response to this RFP will be evaluated based on the following criteria:
 - A. **Compliance with the RFP** - this refers to adherence to all conditions and requirements of the RFP.
 - B. **Distance to contractor's facility** - this refers to the actual mileage from the intersection of Highway 35 and Deal Road in the Township to the Contractor's facility.
 - C. **Travel time** - this refers to the total time from the intersection of State Highway 35 and Deal Road in the Township to the Contractor's facility and back to the Township as determined by the Township.
 - D. **Turn-around time** - this refers to the time the Township vehicle is in the contractor's facility from the time it arrives, delivers its material and leaves the contractor's facility
 - E. **Costs** - this refers to the proposed contract price.
 - F. **Hauling Costs** – Hauling costs to the Township are determined by the distance computed between the intersection of Deal Road and Highway #35 in the Township of Ocean and the point of unloading, at the rate of 50 cents per ton-mile for one direction only. The Township shall consider only the cost of one direction when the trucks are loaded as its guideline. The Township also may consider such things as traffic conditions, conditions of the roads and bridges and accessibility to the bidder's place of delivery and his service qualifications in awarding the bid for these items. Plant location must be identified for F.O.B. items. The Township will determine mileage and hauling cost in accordance with the above.

8. The contractor shall provide with its proposal the following:

A. Mandatory Affirmative Action Certification. After notification of award but prior to execution of goods and services contract, one of the following three documents:
